**A Note to our Readers!**

The Odeon Records contained in this Catalogue are Electric Recordings, each of them double sided and will appear under the initial "A", the colour of the label however is different according to the serial number of the Record.

- A (Numbers 248000 and upwards) = Mauve label
- A (" 248300 " " ) = Light Blue label
- A (" 248750 " " ) = Dark Claret label

The Colour of the label denotes the Price Class.

**General Suggestions**

1. Never forget that Odeon-Records are made to play at the speed indicated on the label. Except where otherwise stated, they should always be played at a speed of 78 revolutions a minute.

2. The perfection of the reproduction of Odeon-Records depends upon the needles used. To obtain a really perfect reproduction of Odeon-Records use only Odeon-Needles.

3. On no account should a needle be used more than once.

4. Records should be kept clean. — Dust and dirt destroy the playing surface of the record. For this purpose a special Odeon record Cleaning pad is available in order to clean the record grooves.

5. Finally and lastly Records should be stored in Albums which are to be had in 10-inch and 12-inch sizes, each to hold 12 records. These offer the best means of storing the records.
NIGERIAN-RECORDINGS

For special Attention!

The Odcon Records marked with an Asterisk(*) on pages No. 4 up to 14 will not be available before October-November as they have been recorded lately, and will only be released in October-November.
