Dear Dr Reacher,

Re: MR1183 - SURVIVAL ANALYSIS OF A COHORT OF CLOSTRIDIUM DIFFICILE INFECTED AND NON-INFECTED PATIENTS...

I would like to introduce myself as the contact for your study. Please find attached a document for you to confirm your contact details and some other information, this is so we can keep our records accurate and up to date. There are also a few questions where we require some further information, so if you are able to provide that, I would be most grateful.

I am also attaching a copy of the current price list as well as our data formatting guidelines for your information.

Once these details have been confirmed, I will ensure everything is in place at our end to receive your data. I am happy to go through the running of your study once you feel ready to submit the data.

Please do not hesitate to contact me if I can be of any further assistance.

Kind Regards,

MRIS Team Supervisor
