

# What I think about learning in school

Sam goes to school like you and is interested in what other children think about learning in school. We would like to know what **you** think about learning, to make schools better for children in the future. Here are some other children's views about learning and would like to know whether you agree or disagree with them.

**Please give your feeling about every one, as quickly as you can, by making a tick mark in the box you choose.** There are no right and wrong answers. Just make sure you **tick what you really feel.** Your answers are important. Don't show the tick marks to anyone else.

| <b>1</b> We learn best when the teacher tells us what to do.  |               |                |          |                   |                   |
| <b>2</b> We can learn more when we can express our own ideas. |               |                |          |                   |                   |
| <b>3</b> Learning through discussion in class is confusing.   |               |                |          |                   |                   |
| <b>4</b> Sometimes, learning in school is boring.             |               |                |          |                   |                   |

| 6  | I would rather think for myself than hear other people's ideas.       |  |  |  |  |  |
| 7  | I enjoy learning when my friends help me                              |  |  |  |  |  |
| 8  | It is good to hear other people's ideas.                              |  |  |  |  |  |
| 9  | Helping my friends has helped me to understand things better.         |  |  |  |  |  |
| 10 | I am more confident about learning in school than I used to be.       |  |  |  |  |  |
| 11 | I like discussing the books we read with the class.                   |  |  |  |  |  |
| 12 | At home, sometimes we talk about what I have been learning in school. |  |  |  |  |  |
