

Title: Supplementary Dataset 1.

Description: Imputed genotype likelihoods

Title: Supplementary Dataset 2.

Description: HIRISplex-S results

Title: Supplementary Dataset 3.

Description: List of previously published ancient genomes used for population genetics analyses

Title: Supplementary Dataset 4.

Description: MetaPhlan2 results

Title: Supplementary Dataset 5.

Description: MALT results

Title: Supplementary Dataset 6.

Description: Pneumococcal virulence factors

Title: Supplementary Dataset 7.

Description: HOLI results
