

WELCOME

Dear Sir/Madam,

Hello,

We are a team of academic researchers from the University of Cambridge. We are conducting a study about the police. We understand that you were recently stopped by police officers at the port. We are very interested in your views concerning your interaction with the police whilst you travelled through the port.

We would like to understand your views about the conversation you had with the police officer. We are interested to know how you feel about the time you spent with the police officer and what, if anything, can be done to improve the interactions between the police and the public at ports.

Your thoughts are very important to us. The findings of this study may assist the police in changing policies and work practices, which is why your views, whatever they are, matter.

Participation in this survey is voluntary and you can withdraw at any time during the survey. Your responses will be kept confidential. Results will be anonymised and analysed as a group. Your details will not be forwarded to the police or anyone else.

This survey should take about 5 minutes to complete, and we appreciate you taking the time to share your opinions with us.

We are approaching every passenger that has experienced the same kind of stop you have experienced at the port, during the study period. In order to manage the responses within this study, please enter the unique flyer identifier code. The code can be located at the bottom of the flyer you were given by the officer. The code should start with the two letters, followed by eight digits, for example “**AA04020001**”.

Please enter your unique flyer identification code without any spaces.

Please tell us the date you were stopped by the police at the port
