

Descriptions of Additional Supplementary Data files

Supplementary Data 1. Loci bound by NOTCH/RBPJ in RGCs or IPCs and their associated genes. Related to Fig. 2.

Supplementary Data 2. Overlap of genes bound by RBPJ ChIP-seq, RGC-specific RBPJ TaDa and RNAseq upon NICD overexpression. Related to Fig. S5g.

Supplementary Data 3. Peaks associated with each Notch/RBPJ peak cluster and the associated gene for each peak. Related to Fig. 3.

Supplementary Data 4. RGC-specific genes determined by bulk RNA-seq that are bound by NOTCH/RBPJ in peak cluster 6. Related to Fig. 4b
