(One Earth 2, 429–443; May 22, 2020)

In the preparation of the originally published perspective, text from an internal Nature Conservancy working document was unfortunately included without proper attribution to its authors, who are not co-authors of this paper. In the online version of the article, the section “Prioritization of Conservation and Rehabilitation” has now been corrected to cite the framework developed by McGowan et al. (as reference 113) and include minor text edits. In addition, the Acknowledgments section now recognizes the input of the internal working document’s co-authors McGowan and Possingham. These changes do not affect the conclusions of the perspective, and the authors apologize for the oversight.
