The Re-Use of Data by Persuasive Robots
This form is run independently by Tiberius Ignat, after a presentation at Cambridge Data Week 2020 and it's not an initiative of Cambridge University or its Office of Scholarly Communication.
Your participation is not mandatory.
* Required
Humans persuaded by robots and algorithms. Is this a good idea? *
Yes
No
Would you like to contribute to a movement which aims to stop the practice of using non-human to persuade humans? This movement could start with regulations toward the re-use of research data *
Yes
No
(Optional) Please register your email address if you would like to stay in contact
Your answer
