

Description of Additional Supplementary Files

File Name: Supplementary Movie 1

Description: Anisotropic light scattering of the nematic elastomer film with the director buckling pattern

File Name: Supplementary Movie 2

Description: Appearance on stretching and de-stretching of the nematic elastomer film with the director buckling pattern, part 1.

File Name: Supplementary Movie 3

Description: Appearance on stretching and de-stretching of the nematic elastomer film with the director buckling pattern, part 2

File Name: Supplementary Movie 4

Description: The switchable optical effect of the nematic elastomer film with the director buckling pattern works in water.

File Name: Supplementary Movie 5

Description: The mechanical stability of the nematic elastomer film with the director buckling pattern against rubbing by an iron file
